

DRAFT Masterplan

Our school will celebrate its 150th anniversary in 2021. The school wishes to mark this anniversary with a revitalised school precinct. Over the past couple of years the school has been working with a small group of parents to develop a vision for the infrastructure of our growing school. The Draft Masterplan document reveals this vision. Note that the Draft Masterplan is a vision of what we would like to achieve at the school, not necessarily a picture of what the school will look like.

Through this Masterplan we seek to improve student's safety, have more flexible learning and play spaces and present a functional and beautiful school befitting our surrounding environment.

We will work towards achieving the following nine projects in 2 stages.

Stage 1

- i. Construct a new multipurpose building and demolish the existing 'Afties' building
- ii. Improve parking and limit car access on school grounds and relocate bins
- iii. Landscape internal courtyard following removal of the existing 'Afties' building
- iv. Refurbish existing infant's toilets and include outside access

Stage 2

- i. Construct a new classroom
- ii. Refurbish existing heritage classroom to provide staffroom facilities
- iii. Refurbish the existing administration building to provide appropriate office space, storage and front of school facilities
- iv. Unify the appearance of the school through landscaping
- v. Install photovoltaic panels

Copies of the full Draft Masterplan document are available through the school office. The school would like feedback on this Draft Masterplan from any interested members of the school and broader community. Please provide written comments to the Principal, Clare Pritchard at clare.pritchard@det.nsw.gov.au
